## Objectives Of The Campus Placement

- To guide in higher education and research opportunities and motivate the students for better career.
- To inform on/off campus job and research position opportunities

To provide employment opportunities by inviting reputed companies.

To develop confidence building to face the selection process of job recruiters

To guide and help in imparting quality practical experience through internship opportunities

## APPROACHING COMPANIES FOR ON-CAMPUS PLACEMENT

The main objective of the campus placement activity is to get students a job right after they have finished their education. Since the campus placement is conducted before the final exam, students have an added incentive to do well in their final exam. Students are also under less pressure. Good placements also allow colleges to claim 100% placement which is an excellent form of advertising for them. Companies get to snatch up talented people who will do some great work for their business..
